- Elimination of Corrosion
- High Chemical Resistance
- Easily Customized—Call with your needs
- Limited Lifetime Warranty

Plastic Solutions Trash Racks are made from structural plastic, which provides a high strength, lightweight, impact resistant alternative to metal trash racks. Structural plastic Trash Racks are 100% maintenance free and are made to withstand rough handling, high/low temperatures and long term weather exposure. Each rack comes pre-drilled and all mounting hardware is supplied. This makes for quick and easy installation, without the need for heavy equipment (1-2 person installation in most cases). Structural Plastic Trash Racks provide a structurally sound product with a long-lasting quality appearance.

Trash Racks are available in standard sizes and shapes to accommodate nearly every application, however, we can customize to your exact requirements. Plastic Solutions, Inc. offers a Limited Lifetime Warranty. They will replace a trash rack for any defect related to material or workmanship for the life of the structure/pipe. All of these features and benefits combine to make Plastic Solutions the most environmentally responsible Trash Rack and the very best value on the market today!

For more information about Trash Racks and Debris Cages, call your ACF Environmental or Plastic Solutions distributor.

*Peak Roof Style -
